Modern. Modular. Multipurpose.

ENGAGE® desking combines clean, open-leg style with modular components that can be configured in both freestanding and build-to-length configurations. Primary and Add-On frames in 4', 5' & 6' widths are triple-rigid with metal legs, metal channel and metal cross-member supports. All support 24" and 30" deep worksurfaces. Tackable/Acoustical divider screens slide over tubular metal posts for superior rigidity.

Double-Sided

ENGAGE® excels in collaborative environments and multi-user areas as well as popular touchdown and hoteling applications. Double-sided units combine one frame and two worksurfaces with area between for wire management as well as attachment of divider screen hardware. Tackable/acoustical divider screens recommended.

Single-Sided

ENGAGE® features a low-profile center channel that doubles as a wire-management trough and conceals wires and/or electrical system from view. Single-sided units, comprised of one frame and one worksurface, provide flexibility for a variety of applications. Add tackable/acoustical divider screens in 4 color options as well as monitor arms and power modules.

Versatile

Designed with primary + add-on modularity, ENGAGE® provides optimum flexibility and dollar-saving practicality. With modern silver and white finishes and 4 matching commercial-grade laminate worksurface finishes, ENGAGE® can be combined with other wood/laminate casegoods, such as Napa Series in Urban Walnut as shown below.

ENGAGE®

Double-Sided | Collaborative Spaces

Build-to-length, double-sided ENGAGE® configurations create collaborative opportunities in clean, contemporary style. The low-profile center channel is designed to carry power/data to all users. Add tackable/acoustical divider screens for enhanced convenience. Combine with Office Star pedestals, lateral files, power modules, monitor arms and seating for a full-function office environment.

All conference tables feature 2" thick tops. Work surfaces and end panels are 1-1/8" thick. Edges and corners are solid hardwood carefully crafted to match select hardwood veneers, presented in Dark Cherry stain. OSP® Furniture veneer casegoods are to be cleaned with a solution of 9 parts water and 1 part rubbing alcohol. Laminate casegoods can be cleaned with the same solution of 9 parts water and 1 part rubbing alcohol or a non-abrasive cleaner, such as Windex. Always use a clean, non-abrasive, soft cloth.

Natural Wood is made up of millions of cells relying on absorption of pigments and dyes. The absorption rate and capacity of absorption is affected by numerous factors. While each manufacturer has its own processes and wood types and although they may call their finishes by the same name, all natural wood products are subject to variations in shade and product from different manufacturer's and may not exactly match with each other (i.e. Cherry, Mahogany, etc.).

Care and Cleaning of Leather and Vinyl Surfaces:

Many of our products feature leather and vinyl materials that may require some maintenance. For cleaning, we recommend cleaners and conditioners that are made for leather and vinyl surfaces. Begin with a spot test on a small, discreet area to ensure the cleaner will not damage or discolor the upholstery. Once proven safe, apply the cleaner and gently rub in circular motion the surface with a microfiber cloth. You may choose to apply a conditioner and use the cloth to buff and rehydrate the coat for a pristine appearance.
